

Stephen Ambagis is the owner / CEO of Resource Mapping Hawaii LLC (RMH), a local aerial mapping company here in Hawaii. Stephen is both a certified part 107 drone pilot and manned fixed wing pilot. RMH has been mapping using both manned and unmanned aircraft in the state since 2008 with a focus on large scale coverage at very high resolutions throughout the state and Pacific region. Stephen has experience with custom built open source drone platforms as well as the industry standard DJI platforms available. His drone experience has been geared toward high accuracy mapping products but also has experience with "on the fly" visual assessment and evaluation.
