## We Repair & Rent!

Our Service Department offers in-house service & repair on surveying instruments and laser levels. For questions and / or repair pricing, please contact us.

We offer daily, weekly, or monthly rentals on survey and laser equipment at affordable prices. This is perfect for one-time-needs or weekend projects. For questions regarding rental pricing and availability, please contact us.

## We Deliver, Pick-up & Ship!

We deliver & pick-up from Hilo to Kona, to save you from taking that special trip into Hilo. If you're on another island, no worries, we ship via UPS, USPS or air Cargo. Just contact us and we can provide you with the best method possible.

How You Measure Matters

The Trimble SX10 Scanning Total Station effortlessly expands your capabilities. This versatile solution collects any combination of high-density 3D scan data, enhanced Trimble VISION imaging, and high-accuracy total station data – so you capture exactly what you need – saving you time while increasing productivity. At Frontier Precision, we believe the most important measurement is your bottom line. To learn how Frontier Precision can help your business run smarter, visit [www.frontierprecision.com](http://www.frontierprecision.com).

1988-2018  
AN EMPLOYEE-OWNED COMPANY

Designed to redefine surveying, imaging, high-speed 3D scanning, and how efficient you work.
